Analysis by the Legislative Reference Bureau

This bill provides that a pharmacist licensed by the Pharmacy Examining Board (board) in the Department of Regulation and Licensing (DRL) may not be required to dispense a prescribed drug or device if the pharmacist has reason to believe that the drug or device would be used for causing an abortion. An "abortion" is defined as the use of an instrument, medicine, drug, or other substance or device with the intent to terminate the pregnancy of a woman known to be pregnant or for whom there is reason to believe that she may be pregnant. In addition, there must be no intent to increase the probability of a live birth, to preserve the life or health of the infant after live birth, or to remove a dead fetus. Also under the bill, a licensed pharmacist may not be required to dispense a drug or device if the pharmacist has reason to believe that the drug or device would be used for causing the death of a person, if the pharmacist consults with the practitioner who prescribed the drug or device.

The bill also provides that a pharmacist's refusal to dispense a prescribed drug or device because he or she has reason to believe that the drug or device would be used for a purpose described above may not be the basis for a claim for damages against

ASSEMBLY BILL 63

the pharmacist or the pharmacist's pharmacy. Also, such a refusal may not be the basis for disciplinary action by the board or DRL against the pharmacist.

This bill expands the definition of employment discrimination based on creed. Under current law, "creed" is defined as a system of religious beliefs, including moral or ethical beliefs about right and wrong, that a person sincerely holds with the strength of traditional religious views. Employment discrimination based on creed is defined to include refusing to accommodate reasonably an employee's or prospective employee's religious observances or practices unless the employer can demonstrate that the accommodation would pose an undue hardship.

The bill also expands the definition of employment discrimination based on creed to include discriminating against a pharmacist on the basis of his or her refusal, based on creed, to dispense a prescribed drug or device that the pharmacist has reason to believe would be used for causing an abortion or causing the death of a person. Under the bill, discrimination includes refusing to hire a pharmacist, terminating a pharmacist's employment, and discriminating against a pharmacist with respect to promotions, compensation, or terms, conditions, or privileges of employment. There is no exception for an employer to show that the pharmacist's refusal poses an undue hardship.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

1 **SECTION 1.** 111.337 (1) of the statutes is renumbered 111.337 (1) (intro.) and
2 amended to read:

3 111.337 (1) (intro.) Employment discrimination because of creed includes, but
4 is not limited to, refusing any of the following:

5 (a) Refusing to reasonably accommodate an employee's or prospective
6 employee's religious observance or practice unless the employer can demonstrate
7 that the accommodation would pose an undue hardship on the employer's program,
8 enterprise, or business.

9 **SECTION 2.** 111.337 (1) (b) of the statutes is created to read:

10 111.337 (1) (b) Discriminating against any pharmacist licensed under ch. 450
11 by engaging in any of the actions prohibited under s. 111.322 on the basis of the

4 2. Causing the death of any person, if the pharmacist consults with the

8 **450.135 Pharmacist's refusal to dispense for abortions, assisted**
